EX PARTE OR LATE FILED

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY

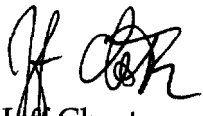

Dear Mr. Caton:

On behalf of the participants of the University of Wisconsin's 18th Annual Early Childhood Conference in Whitewater Wisconsin, please accept the enclosed document as an *ex parte* filing in the Children's Television Act proceeding (Docket No. 93-48).

The enclosed petition, signed by over 600 child educators, parents, and caregivers, represents a strong call to the Federal Communications Commission (FCC) to make broadcasters accountable to the public whose resources they use. In particular, the petition urges FCC Commissioners to strengthen the rules implementing the Children's Television Act by further defining what is meant by "educational" programming and requiring every station to air a minimum of such programming - such as one hour per day between 7a.m. and 10p.m. The petitioners also call for strong support of public broadcasting - "a vital national resource for education and for our children."

The petition was independently organized and supported by Mr. Bob McGrath, an internationally known figure in children's broadcasting and presenter at the Annual Early Childhood Conference. About to begin his 28th season on *Sesame Street*, McGrath is a successful recording artist and concert performer whose audiences now encompass two generations of *Sesame Street* viewers. A parent of five children and grandparent to five granddaughters, Mr. McGrath has served as Chairperson of National UNICEF Day, hosted for two years the World Children's Day at the UN General Assembly, and has been active in the Variety Children's Charity for over 25 years.

Sincerely,

Jeff Chester

PETITION FROM THE PARTICIPANTS OF THE
18TH ANNUAL EARLY CHILDHOOD CONFERENCE*
WHITEWATER, WISCONSIN
APRIL 13, 1996

Dear Mr. President, FCC Commissioners, Senators Dole, Pressler,
Representatives Gingrich, Fields, etc.:

We are writing to request that you use your office to promote the full use of the public airwaves on behalf of our nation's children. As you know, the public interest obligations for broadcasters are so vague that they are practically unenforceable. Mark Fowler called them "legal fiction."

As America enters the age of digital information, broadcasters argue that they should receive spectrum for advanced television for free, because they are public trustees. We, the undersigned, teachers who work with the young of this nation, urge you to make broadcasters accountable to the public whose resources they use.

Under the law there are only two special classes of citizens in broadcasting: politicians and children. Many of you benefit from the explicit provisions of the law's Equal Time provision. Certainly our children are also deserving of similar benefits as authorized by the 1990 Children's T.V. Act (MM No. 93-48).

Specifically, we urge you to:

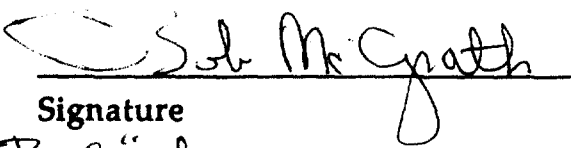

Support FCC Reed Hundt in his efforts to establish a minimum quantitative requirement for such programming, such as one hour a day between 7 and 10 p.m., and to further define the "educational and informational" programming requirement in the Children's Television Act.

Support public broadcasting, from early childhood programming to dedicated classroom instruction. Public broadcasting is a vital national resource for education and for our children.

We urge you to consider these points for one simple reason: Our children are the public interest. They are the future of our country. Broadcasters should honor their needs as the law requires and the public deserves.

Sincerely,

Signature

"BOB" from
